WHY JOIN?

- **Essential Education and Networking:** NAPPA hosts two member-only educational events each year featuring sessions highly relevant to public pensions and essential networking opportunities.
- **Winter Seminar:** Held in February, this event devotes two days to investments, fiduciary and plan governance, benefits, and tax topics. General interest topics are covered on the final morning of the program.
- **Legal Education Conference (LEC):** Held each June, the LEC is an invaluable opportunity to learn more about the law and legal issues affecting public sector plans on a wide range of topics, including two hours devoted to legal ethics, and two focused on new member education. The conference ends on a strong note with updates on pension-related litigation and federal legislative activities. As an added benefit, NAPPA applies for CLE accreditation of this program and reports credits according to each states' requirements.
